Review Flood Related Goals of 2018 Ocean County HMP

Mr. Huch presented the flood related goals from the recent Ocean County HMP:

- Encourage sustainable development to protect people, property, community resources and the environment from natural and human-made hazards

MEETING NOTES

- Build and rebuild structures and infrastructure to protect people and to reduce impacts of future disasters
- Protect and restore the natural environment to support disaster resiliency
- Promote education, awareness, and outreach before, during and after disaster

Mr. Huch noted that these goals were very general but could be used as a starting point for discussion for the development of the goals of the Brick FMP Update.

Set Goals and Objectives of Floodplain Management Plan

Mr. Huch led a discussion with the committee to update the mission statement, goals, and objectives for the Floodplain Management Plan.

Mr. Huch explained that goals for the FMP can be more specific but could cover the following topic areas:

- Property protection

- Natural resources protection
- Structural protection projects
- Education and Awareness programs

The committee discussed each of the goals and objectives from the 2016 FMP. Language updates were made and new goals and objectives were added, based on the committee's discussions.

- The next meeting of the Planning Committee will be on August 5, 2021, to discuss developing actions for inclusion in the FMP.
